DISPOSAL FACILITIES

To create the double-sided cards, print these sheets double-sided using the following settings in the print dialogue box:

- Select "Actual size" or "100% scale"
- Select "Print on both sides of paper"
- Beneath that setting, choose "Flip on long edge"
- Under orientation, select "Portrait"

Once printed, cut along the dashed lines to create the individual cards.

The transportation professionals who collect and deliver waste to processing facilities.

Individuals and groups that create waste through daily living, work, and consumption.

Sites where waste is safely transferred, converted to energy, or responsibly landfilled.

Operations that sort, process, and return recyclable materials to the manufacturing stream.

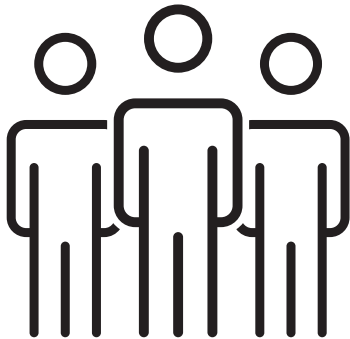

To create the double-sided cards, print these sheets double-sided using the following settings in the print dialogue box:

- Select "Actual size" or "100% scale"
- Select "Print on both sides of paper"
- Beneath that setting, choose "Flip on long edge"
- Under orientation, select "Portrait"

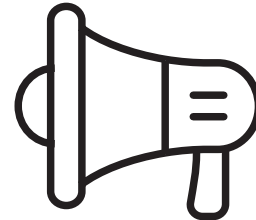

Once printed, cut along the dashed lines to create the individual cards.
